Please describe a summary of work undertaken by the SAC to improve student achievement and school performance.

The School Advisory Council (SAC) met six times throughout the school year to review school events, monitor progress on our Student Success Plan, and discuss the allocation and impact of SAC grant funding. Through their important consultation role, SAC members provided valuable feedback and perspectives that supported school planning and decision-making. Council members also demonstrated their commitment to the school community by volunteering their time to assist with school events whenever possible. Their ongoing support, engagement, and advocacy contributed positively to our efforts to enhance student achievement and foster a strong school community.

Please list any significant milestones and success stories that the SAC would like to highlight.

A particularly meaningful milestone this year was the opportunity to recognize our School Advisory Council members with gifts created by students in the school's Maker Club. The Maker Club was made possible through the fundraising efforts and ongoing support of the SAC over the past several years. Students designed and created the gifts themselves, showcasing the creativity, skills, and learning opportunities that the club provides. SAC members were delighted to see firsthand the positive impact of their contributions and to witness how their support has helped create enriching experiences for students.

Please describe any related sub-committee work undertaken by SAC members (e.g., School Options Committee).
